By submitting this request the client acknowledges that he/she is aware that leverage carries a large amount of risk to his/her capital and there is a possibility that he/she could sustain a loss greater than and not limited to the amount the client has deposited.

CFI Markets Ltd should always act in the best interest of its clients. Hence the default leverage provided is 1:50. Retail clients have the option to amend the default to a higher leverage only if the appropriateness assessment test allows them to do so.

CFI Markets will never accept any responsibility or liability initiated from the account holder's mismanagement.

I agree that the above requested cancels my previous leverage level.

Leverage can be changed anytime at CFI Markets without client notification.
